# Come January 30th to participate in a working session Utilizing a CQI Online System in Development!

CAN is creating a suite of tools to support CQI including:

Come learn about the online CQI Data System on January 30th at LACOE!

Sign up on the Aspire Website at - https://expandedlearningr11.com/

- Go the events drop-down menu
- **Reserve a seat for** "How To's of Utilizing the CQI Online Tracking System"

Learn about and offer input to this resource in later stages of development.

The tool includes:

- Applications appropriate for Site, multi-site, grantee with multiple CBO partners and/or CBO leaders with multiple grantee partners, and consortium leaders.
- The ability for users create unique login
- The ability to disseminate self-assessment elements via survey
- The flexibility to add new elements to self-assessment to be responsive to local context
- Access progress reports and data dashboards with assessment results
- Upload functionality observers to upload observation data into the system
- Upload functionality for site leaders upload site-level CQI plans into the system (on an ongoing basis to encourage CQI plan adaptability).

Come learn more and most importantly offer input to how such a tool could better meet your specific needs!
