ABOUT THE ALLIANCE SUMMIT

Families In Schools is thrilled to announce this year's theme, "United In Action: Building Communities and Schools for All." This year's theme inspires us to be agents of change, compelled by our shared belief that when we act in unison, we have the power to strengthen our schools, our communities, and our civic society.

Now in its sixth year, the Alliance Summit convenes more than 350 parents, school staff, administrators and community leaders for a daylong discussion centered around policies and practices that address the needs of students and families. Our day-long program will include 17 relevant workshops on education's most pressing issues.
