

**We develop equity-driven leaders that reflect their communities
Because strong organizations need strong leaders.**

3-Day Leadership Intensive Retreats

Send individuals or small teams to our 3-Day Leadership Intensive Retreat workshops

From professionals working in their first supervisory position to those making careers in youth development, leaders of staff teams and programs need professional and leadership development to bring their very best to their programs. Our 3-Day Retreats provide reflection, skill building and planning time for leaders at all levels.

Workshops will be held in Fall 2018 & Spring/Summer 2019 in Northern, Central and Southern California

Leadership Development Institute Fellowships

Intensive year-long cohort-based fellowships for emerging leaders

Our yearlong Leadership Development Institute fellowships foster transformative change, allowing each individual to be part of the larger movement for equity and social justice. Launched in 2010, our fellowships are the only of their kind in the out-of-school time field.

Applications for the 2019 Leadership Development Institute for Emerging Leaders of Color open in Spring 2019
