After School Programs for Students of all Grade Levels

PRIMARY ELEMENTARY MIDDLE SCHOOL HIGH SCHOOL

We also have a Pre-K package and programs for Adult Education.

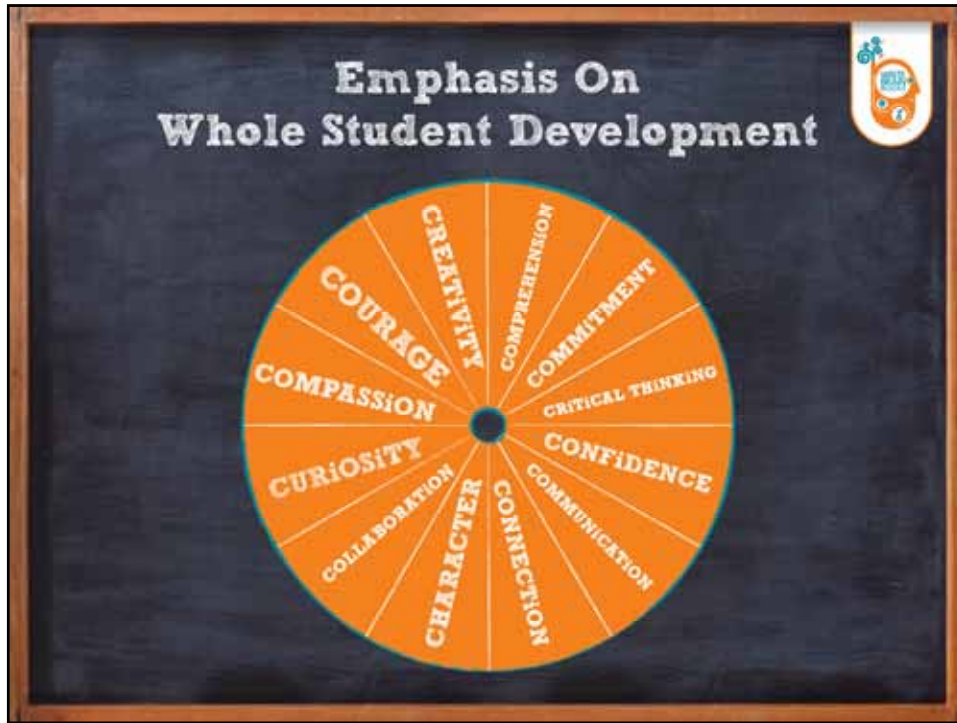

There Are Problems In and Outside the Classroom That We Can Solve in After School.

These days, young people are making fewer connections—not just to other people, but to themselves and to big-picture and holistic concepts. They are distracted. They are anxious. They look up less often. They listen less actively.

Parts of their brains are overwhelmed while other parts are underdeveloped. They think less critically, process less slowly, and many are not able to sign their own names.

With the WRiTE BRAiN programs, every student discovers his or her own voice as they give voice to characters in the colorful and imaginative worlds that they themselves create.

It's DISGUISED LEARNING in a fun and project-based process that increases student confidence and elevates test-readiness and self-esteem!

- 21st Century Skills-Building
- English Learner Scaffolding
- Professional Development
- Social-Emotional Learning
- Research-Based
- Standards-Aligned
- Project-Based Learning
- Disguised Learning

- Family Engagement Opportunities
- Facilitator-friendly Guides
- Expanded EL Vocabulary

The Full Program

*Implementation structure may differ for customized program packages

Part One: Collaborative Authoring & Publishing

Part Two: Independent Authoring & Publishing

SUMMER

Literacy Engagement Authorship Pride

Highly Engaging Summer Programs "Students Leap Over Learning Loss"

WRITE BRAIN's Summer Programs are designed for any summer schedule (15-26+ Hours, with additional scaffolding for English Learners). Engage students over the summer with a highly flexible and fun group, pair, or individual authoring program and make PUBLISHED AUTHORS of your students before they return to school in the fall.

We'll help you shape the perfect Summer Learning Experience that Prevents Learning Loss!

Success! No Learning Loss + Gains!

Educational Services provided the WRITE BRAIN curricula to 2500+ K-8 students during a 10-week program in 2016 in Santa Ana, CA. Rubrics were designed to measure students' writing skills development with a 1 to 4 assessment tool, with 4 surpassing grade level expectations. Administrative Staff reported that the level of student engagement and attendance for summer programming was at its highest during the WRITE BRAIN implementation.

After collecting and analyzing the assessment scores, the following results were reported:

Of the 2,561 students, who had both a pre- and post-assessment score:

- 96% experienced NO LEARNING LOSS
- 45% experienced a LEARNING GAIN

Of the 1,145 students who experienced a learning gain: (rubric is 1 to 4 measurement)

- 78% increased by 1 level
- 20% increased by 2 levels
- 2% increased by 3 levels

2,561 STUDENTS

96% No Learning Loss
4% Learning Loss

1,145 STUDENTS

78% Increased 1 level
20% Increased 2 levels
2% Increased 3 levels

The Perfect After School Program to Supplement All ELD Curricula In School!

WRITE BRAIN's programs allow for scaffolding to support students (Pre-K - Adult) at every ELD proficiency level.

NEWCOMER EMERGING EXPANDING BRIDGING

Art is a Universal Language

STUDENTS CAN WRITE IN ANY LANGUAGE

English Learners

WRITE BRAIN's scaffolded literacy-building processes are highly effective with **English Learners**.

"Focus in our after school program has always been academic enrichment. We've been fortunate enough to bring WRITE BRAiN, which really encompassed not only our school board's focus but also the focus of expanded learning programs in California. The great thing about the program is that it embeds and focuses on 21st-century learning. Kids are problem-solving and using strategies to make decisions as a group."

Jennifer Cisneros
Programs Director
SAUSD Extended Learning Engage 360, CA

EL Reclassification

WRITE BRAIN develops skills in all areas tested for proficiency:

WRITING READING LISTENING SPEAKING

Family Engagement & Community Building

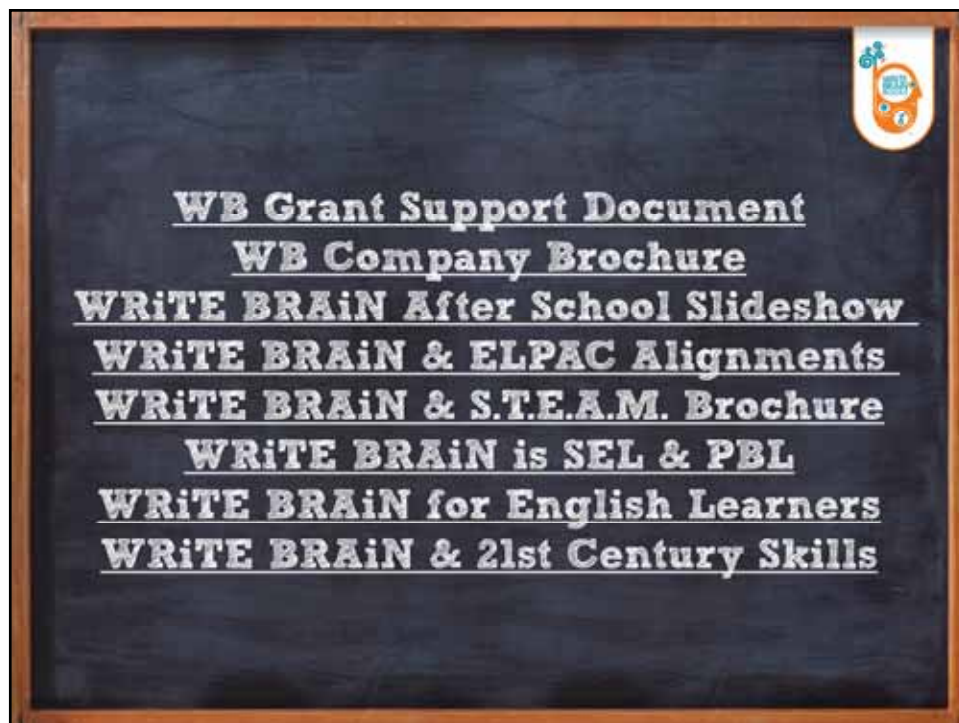

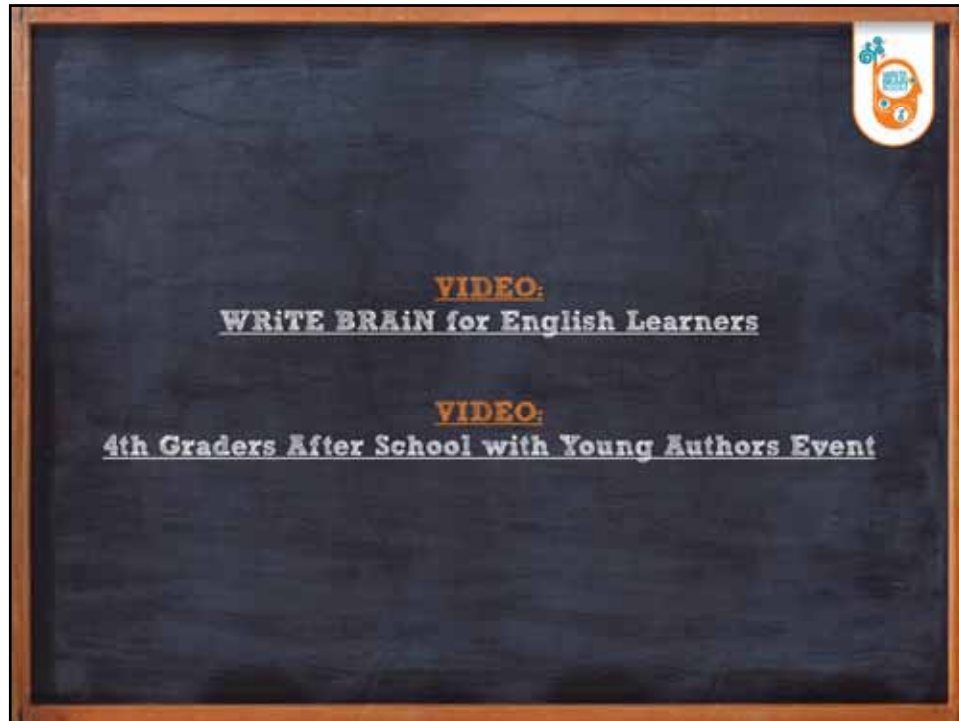

Inspire and involve families of all cultural and linguistic backgrounds!

Building a Library Legacy

Over the course of their WRITE BRAiN experience, your students will develop inspired stories and publish original children's books. These books can live forever in your school or public library, providing literacy opportunities, mentorship and book-buddy projects, as well as service learning that makes whole students of our youth.
